We believe a hostel should be more than just a place to sleep. All of the experience we have gained on our travels, together with our aim of combining a spirit of collectivism and coexistence in our hostels, has lead us to create 'The Equity Point Tours Department' (or Discover Department) and 'The Hostel Art Department'. Both are totally focused on you, the traveller, sharing with you the very best that our cities and our local artists have to offer.

The Hostel Art Dept : Because we know you love art and culture, and because so many artists in our cities have nowhere to display their art, this project aims to show you undiscovered local talent while you stay in our hostels, and also gives these great artists the opportunity to open up their work to our guests. In addition to this, the 'Nomad Art Project', in collaboration with other hostels in Europe, travels with you around the main European cities.

Discover Dept : A Gaudi tour around the city, a tapas night in the best Barcelona clubs, a little salsa and flamenco? All of this, and a never-ending list of passes, tours, museum tickets... The 'Discover Barcelona' team will guarantee you have the best time, and will provide an unforgettable way of getting to know our city. Surf our **Equity Point Blog** to find out all about local tourism, more about our cities, and other interesting news.
