Marrakech Guide

Equity Point Marrakech is the newest of our hostels, and is ideally located in the heart of the *Médina of Marrakech*
, near the souqs, and la Place Jamae el Fenae.

Situated at the foot of the Atlas mountains, the imperial *city of Marrakech* is large, noisy, polluted, and smelly. But Marrakech is also beautiful, fascinating, full of history, and the cultural centre of Morocco. If you enjoy a daily assault on all your senses, then you'll have a lot of fun. When the most popular sights include numerous references to "tranquility" and "peace", like the Majorelle Gardens, or the gardens around the Saadian Tombs, you know you're in for an interesting experience. If you find it all a little overwhelming, then get an official guide to take you around.
